

4G'S Art Gallery

For the last couple of weeks, 4G have been learning about the artists Kandinsky, Klee, Delaunay, Mondrian and Rothko.

They have been trying out the effects of using tints and shades when colour mixing to create certain moods. They have painted pictures in the style of the artist and have been learning how different things influenced the type of art work that the artists produced and what made them famous. We are looking forward to studying Pollock next week and flicking paint carefully onto our pictures!
